

# CREATE A LIVING MEMORIAL

The gift of a memorial tree is enduring, symbolic, and will grow stronger, and blossom with life, year after year. It is a Gift of Life which helps support and heal both those who receive it as well as our planet. Choosing to plant your gift on one of the Land Trust properties will more directly add trees to areas where our fellow citizens live and work, and in areas where trees have been ripped from the very fabric of people's lives.

## Thank you for choosing to participate in the Land Trust for the Mississippi Coastal Plain's Memorial Tree Program, in partnership with Hancock Bank.

The one-gallon Live Oak trees will be planted during prime planting season on one of the Land Trust's properties or on a land parcel of your choice. Planting can be calendared around your schedule if you and your family would like to attend. If you are unable to attend, the Land Trust will send you an e-mail with a picture of the tree once it is planted.
